

Technical datasheet : Warning band

1. Use:

The product is a non-adhesive stripe of polyethylene used to mark dangerous places, race routes, or for marketing purposes like pallet wrapping etc.

2. Technical specification:

| Feature | [Unit] tolerance | Result |
|--------------------------|------------------|--------------------------|
| Width | [mm] +/- 1% | Up to 600mm |
| Length | [mb] +/- 1% | 250, 500, 1000 |
| The diameter of core | [mm] | 76 |
| Total thickness | [my] +/- 10% | 50my |
| Base material | | Low Density Polyethylene |
| Elongation at break – MD | [%] +/- 30% | 400 |
| Elongation at break – TD | [%] +/- 30% | 300 |

3. Guarantee:

- Product and his functionality is guaranteed for 6 months since day of delivery to customer,

4. Conditions of validity of guarantee:

- Product has to be kept in dry places,
- Product has to be protected from direct sunlight,

- Product has to be kept original package prior to use. Inappropriate storing and handling, dropping on the ground must be avoided. Product can not be stored so that it will not deform under pressure of excessive weight.
- Product has to be stored in temperature below 40°C,
- If product is stored in temperature below 10°C, it has to be conditioned in place about temperature since 10°C to 40°C prior to use until it reaches room temperature.
